| Rhodes | 6:30 p. m. | 8:35 a. m. |
| Belleville | 7:20 p. m. | 7:45 a. m. |
| Junction | 7:30 p. m. | 7:35 a. m. |
| Candelaria | 8:00 p. m. | 7:00 a. m. |

The above trains are run daily, and make close connection at Mound House with trains of V. & T. R. R., for Virginia and Reno, and with the Central Pacific Railroad at Reno, via V. & T. R. R. for all points East and West.

Express train from Reno and Local Passenger train leaving Virginia at 9 o'clock A. M. connect at Mound House with trains of Carson & Colorado Railroad, arriving at Hawthorne at 3:40 P. M. of same day, connecting with the United States Stage Company's line of Concord coaches, arriving at Aurora and Bodie same evening; arriving at Luning at 5:33 P. M., connecting with stages for Grantsville, Belmont, Tybo, etc., and arriving at Candelaria at 2 P. M., connecting with stages for Columbus, Silver Peak, Montezuma, Alida Valley, Gold Mountain, Benton, Bishop Creek and Independence.

H. M. YERINGTON, R. J. LAWS, General Sup't. Asst. Sup't. D. A. BENDE, General Freight and Passenger Agent.

BRIEF MENTION.

The Sutro school opened last Monday.

The Board of Equalization meets next Monday.

See notice of Republican Primaries under new to-day.

Ammen's Cough Syrup cures colds, bronchitis and consumption.

Philip Geyer set men to work on the Silver Leaf mine, near Silver City, on Thursday last.

Rev. W. G. Simpson will preach in the Court House to-morrow afternoon at 3 o'clock.

A band of 1,300 sheep was driven through town on Tuesday. They came from Reno, and are bound for Pine Nut.

Tom Riley came over from Carson Tuesday to act as engineer on the Joe Douglass. He will probably bring his family here to remain.

The N. & O. R. R. is now completed a distance of 29 miles, and yesterday a regular passenger train was put on, which will hereafter run regularly.

The Mollinelli House is the best place in Virginia for visitors to look for rooms. It is well kept, the terms are moderate and its situation is convenient to trains and stages.

Part of Longabaugh's wood drive has reached Spanish Pond. The river is so low that it will probably be a month before it reaches Dayton, and will by that time be pretty well seasoned.

It is in every one's mouth "why was not Mr. Harry Day nominated by the Democratic Convention," and the answer comes, that he is too well educated and independent for the average Democrat-Carson Tribune.

Political dark horses had better gallop to the front and inform the dear people, through their local own paper, what office they intend to run for this Fall. The delegates are anxious to learn the names of all the candidates.

The new locomotive Joe Douglass, was fired up and set to work on Thursday. A new locomotive is always a matter of curiosity and subject to speculation to those in the neighborhood. Although we had two somewhat similar engines some time ago there are still a few of the inhabitants of the suburbs who do not understand exactly how such things work. Some anxious women stood around while the process of firing up was going on, and a little impatience was manifested at the delay in getting up steam. It was evident that they thought matters could be expediated if the engineer would take off the lid of the boiler and let them carry a few bucketsful of hot water and pour it in.

The Capitol Saloon.

The Capitol Saloon on North C street, Virginia, is the favorite resort of the thirsty. Hooper and McCourt are always ready to supply their customers with the best in their line. Elegant club rooms are attached and taken altogether the Capitol is one of the best saloons in the State.

Detection of Lead in Tinfoil.

A drop of concentrated acetic acid is let fall upon the suspected leaf, and a drop of a solution of potassium iodide is added. If there is lead present there is formed in two or three minutes a yellowish spot of lead iodide. Kopp moistens the leaf to be examined with sulphuric acid. If the tin is pure the spot remains white, but if lead is present there is formed a black spot.

For County Commissioner.

The card of H. J. T. Scheel, of Silver City, will be found in another column announcing that he is a candidate for re-election to the office of County Commissioner. Mr. S. has served his term creditably and has gained experience which will be of service should he be re-elected. He is a successful business man, energetic and popular, and will make a good run should he receive the endorsement of his party.

The Como-Eureka.

The horse power and ore dump of the Como Eureka are finished and everything is in complete running order on the surface. A station has been opened on the 115 foot level from which a lateral drift has been run north; it is now in the ledge 14 feet, the face being still in good ore. No cross cut has been started west, but in all probability good ore will be found in that direction as the west wall of the ledge is more than 100 feet distant.

Malarial Germs.

The cause of malarial diseases is said to have been discovered by Prof. Laveran, a French physician of Val de-Grace. It is a very minute organism, named by him *Oscillatoria malariae*. M. Richard, who announced the discovery in the French Academy of Science, has found these microbes in all the fever patients of the Philadelphia hospital in Algeria. These are located in the red blood corpuscles, and completely destroy their contents. They can easily be rendered visible by treatment with acetic acid, but otherwise it is difficult to detect them in the corpuscles. They look like a necklace of black beads, with one or more projections, which penetrate the cell of the corpuscles, and oscillate or move like whips.

Conductors on the V. & T.

Conductor Verrill, of the V. & T. express has resigned in order to attend to some mining interests in California. Mart Follett, who has run the local train for many years will succeed him. Mart is one of the best and most popular railroad men in the State, and his promotion gives general satisfaction.

Since the above was put in type the following appeared in the *Reno Gazette*: "The resignation of Ed. Verrill, who has been in charge of the 7 P. M. train to Virginia, has caused several changes in positions on the road. Wm. Havenor—a very popular man—takes the first train, and Chas. Thrall gets Havenor's place on the 8:30 local. Jerry Bray who has been brakeman on the local, takes Thrall's situation as freight conductor between Carson and Virginia.

The Candidate.

"What is a candidate Ma? It is a man who runs for office, son. How fast do they run? Some run faster than others; some candidates are always behind in this country—he procession is too fast for them. Is Pa a candidate, Ma? No, son, your father hasn't time to run for office, and besides he wouldn't have one if it were offered to him. Well, what makes him go to the 'Lection and vote for them? Because he is a good citizen and wants the candidate of his party elected. Can't I vote sometime, Ma? I want to see what they look like. All right my son—they will be around soon thicker than cinch bugs in the spring time, and you shall see all you want. Will they bite? No, they will kiss you, darling, and the baby, too. Will they kiss you, Ma? Not if I know myself. Well, a candidate must be a funny thing, Ma. I wouldn't be one though,"—*Callaway (Mo.) Gazette*.

PONY'S LETTER.

Mining Prospects Brightening in Como—Visitors, Etc.

Como, Sept. 13th, 1882.

EDITOR TIMES:—It is many months since I have had the pleasure of telling you "something," and the reason was I had nothing good tell. But now the scene has changed and I am no longer afraid or ashamed to speak of our brightening prospects. Last Sunday I was kindly permitted by the Superintendent, Mr. Symons, to inspect the underground workings of the Como Eureka mine, and to say that I was astonished at the amount of work that has been done recently, and the richness of the ore that they have here and there encountered, would but tamely express my surprise at what I saw. I am not permitted to give any assays or particulars as to what lies hidden under the "divide" at Como, but may safely say that I saw in several places ore that will pay. "Harry" can find no fault with that from the fact that several tons of it lie on the ore dump outside and will speak for itself to the practiced eye of the average Nevadan. The ledge is fully 125 feet in width. At this depth, 115 feet, it is not all quartz but mixed with the real Comstock blue porphyry, which of itself would well pay for working. The superintendent informed me that he should put on another shift, probably this week. If satisfactory arrangements can be made with the mill company it will soon be started, it not a mill will be built soon, and the prosperity of Como assured.

Several parties were up from Dayton last week. First Mr. Cooke—I mean the irrepressible Robert—came up ostensibly to hunt sage hens, but "Bob" is sly, and may have hunted for other and larger game that would have been more available two months hence than sage hens. As I said, "Bob" is irrepressible and will bear watching. Later the Messrs. Brooks with their families and Mrs. Wm. Rulison paid Como a visit and made us all glad but once and that was when they came. Last, but by no means least, of our visitors was Hiero Kennedy. Like "Bob" he was hunting, not sage hens but horses, so he said, and I would as soon think of doubting farmer Treadway as friend Kennedy. I had the pleasure of dining with him at the Como hotel on Sunday, and it was really touching to witness his apparent solicitude lest he should shock the finer sensibilities of the lady diners. It is quite amusing to us of this mountain metropolis to witness the shy diffidence of the guests from that rural precinct, Dayton; to see the wonder that is not to be disguised as he gazes at the napkin nicely inserted in its ring for, it maybe the first time in a not extremely brief life. But Kennedy acquitted himself nobly, and if he did not succeed in cutting his meat with his silver fork, the fault did not lie with him, but with the fork, or perhaps with the too well developed muscle of the beef. But I am admonished that in these political times your space is limited and can be better utilized by other pens than mine. PONY.

Sutro Tunnel.

Following is the report for the week ending September 8th:

North Lateral—On the 7th three repairmen commenced repairing and relaying the ground near the Mint connection, where some lagging had given away.

South Lateral—During the week the repair shift have extended the small sub-drain 200 feet from point 3,595, and cleaned out and enlarged 150 feet of drain below this point; also, raised 105 feet of track and put in some new sills, disjointed and removed 250 feet of five inch pipe and put up two center posts, etc.

Prospect drift No. 6—Number of feet at last report, 174; driven since, 29; total, 203 feet. Also, three repairmen were engaged timbering and cutting a small drain for seepage water.

The following temperatures were observed:

| Temperature at | Air. | Water. |
|--------------------------|------|--------|
| Tunnel entrance | 86° | 112° |
| Shaft No. 1 E. | 89° | 94° |
| Shaft No. 1 W. | 94° | 80° |
| Shaft No. 2 E. | 80° | 55° |
| Shaft No. 2 W. | 84° | 81° |
| Shaft No. 3 | 81° | 75° |
| Combination connection | 80° | 75° |
| Cand C connection | 80° | 75° |
| Yellow Jacket connection | 67° | 90° |
| Overman connection point | 90° | 96° |
| Julia connection | 96° | 77° |
| Prospect Drift No. 6 | 77° | |

Flow of water from tunnel equal to 6,650,139 gallons per 24 hours.

The Biggest Find Yet.

H. H. McColley arrived in town this week from Willow Creek, and though ordinary a cool man, he was somewhat excited. He says D. McPheters, of Spring City, has been prospecting near Willow Creek lately, and a few days ago found a ledge between Willow Creek and Fiat Creek, which so far as prospected, excels in size and richness anything in the mining line ever found in this part of the State. The ledge has been uncovered at right angles with its course, and it is known to be 91 feet wide. Holes have been sunk at intervals for 800 feet along its course and the character of the ore is the same as far as prospected. The ore carries free gold and considerable silver. Pieces of the ore pounded in a mortar and panned out, show it to be rich in gold; and the indications are that Willow Creek will soon rank among the best mining camps in Nevada—*Silver State*.

New Patents.

Dewey & Co's Scientific Press Patent Agency has official reports of the following U. S. patents issued Aug. 29th, 1882:

John R. Adams, Oakland, Cal., inhaler for powders; Jacob Bloomer, Boise City, Idaho, fire escape; Jhos. H. Buckingham, S. F., boot; Bernard Dobbas, Greenwood, Cal., miners' lamp; P. H. Jackson, S. F., illuminating basements; E. Landry, S. F., calendering machine; Katherine S. Lathrop, S. F., skirt protecting coat; W. W. Lemon, Collegeville, Cal., ironing board; S. Lightburne, Jr., coupling; John McDermott, S. F., tuming machine; John Patten, S. F., rotary engine; H. L. Pike, dredge; E. L. Ransome, S. F., laying artificial stone or concrete pavements; D. Shelton, Santa Rosa, Cal., tongue support; Chas. E. Sherman, and L. Sachse, Havilah, Cal., candlestick; John G. Roberts, Morey, Nev., music stand and cane; L. Herbert, Hicksville, Cal., submerged pump.

Photo-Art Gallery.

C. E. Peterson, formerly of Virginia, has opened a photograph gallery at No. 22 Pike street. He is prepared to furnish pictures in all styles finished in the best manner. Mr. Peterson is noted for the correctness of the likenesses which he produces, and he is also an artist with the brush and can paint a life sized portrait from a photograph or any small picture, or finish it after any fashion. His aim is to accommodate his patrons, and those calling upon him will receive courteous attention.

A Delicious Appetizer.

That ensures digestion and enjoyment of food; a tonic that brings strength to the weak and rest to the nervous; a harmless diarrhoea cure that don't constipate—just what every family needs—Parker's Ginger Tonic.

Sparkling Eyes.

Rosy cheeks and clear complexions only accompany good health. Parker's Ginger Tonic better than anything, makes pure, rich blood, and brings health, joyous spirits, strength and beauty. Ladies try it. —*Bazaar*.

A. O. U. W.

Regular meetings of River Lodge No. 6, Ancient Order of United Workmen are held on the second and fourth Saturday in every month.

W. A. RULISON, M. W.

J. A. BONHAM, Recorder.

Sutro Sick.

Dr. P. T. Kirby will visit Sutro every Wednesday. Office hours from 1 to 5 o'clock P. M.

N. B. No visits will be made on Wednesdays except to members of the Hospital Association.

Masonte.

Valley Lodge No. 9, F. and A. M. —Stated Communication second Monday evening in each month; at Odd Fellows' Hall, Dayton.

W. W. STEPHENS, W. M.

G. E. JAQUA, Secretary.

The purity and elegant perfume of Parker's Hair Balsam explain the popularity of this reliable restorative.

MOLINELLI HOUSE.

CLEAN AND COMFORTABLE ROOMS

For Transient or Regular Lodgers at reasonable rates.

No. 9 North C Street, Virginia.

WM. PHIPPS, Proprietor.

NEW TO-DAY.

REPUBLICAN PRIMARIES,

—AND— COUNTY CONVENTION

THE REPUBLICANS OF LYON COUNTY will hold

PRIMARY ELECTIONS

In the several precincts on SATURDAY, SEPTEMBER 23d, 1882, from 2 o'clock to 6 o'clock P. M., for the purpose of electing delegates to the

COUNTY CONVENTION.

To be held in the COURTHOUSE at DAYTON, on WEDNESDAY, SEPTEMBER 27th, 1882 to nominate

Two Assemblymen,

Judges are authorized to appoint clerks.
The delegates are apportioned as follows:

From Silver City..... 9
From Dayton..... 6
From Sutro..... 7
From Mound House..... 1
From Como..... 1
From Wabaska..... 2
From Ft. Churchill..... 1

Total..... 27

The test at the Primaries shall be: "Are you a Republican, and will you vote the Republican ticket?"

By order of the Republican County Central Committee. J. M. McGINNIS, Chairman,

J. M. CAMPBELL, Secretary.

Estate of M. Frett, Deceased.

IN THE DISTRICT COURT, THIRD JUDICIAL DISTRICT, LYON COUNTY, NEVADA. In the matter of M. Frett, deceased.

In pursuance of an order of Hon. Wm. M. Seawell, Judge of this Court, duly made and entered on the 25th day of August, 1882.

Notice is hereby given that Tuesday, the 5th day of December, 1882, at 10 o'clock A. M. of said day, and the Court room of this Court, at Dayton, Lyon County, Nevada, have been appointed as the time and place for hearing the petition of Mary Frett, praying for admission to probate of a document filed in this Court purporting to be the last will and testament of Mathias Frett, deceased, and the issuance of letters testamentary to said Mary Frett. At which time and place all persons interested may appear and contest the same.

Dated August 25th, 1882. Attest, J. S. DALLAS, Clerk.

NOTICE OF EQUALIZATION.

NOTICE IS HEREBY GIVEN THAT I have this day received from the Assessor of Lyon County the assessment roll of Lyon County, Nevada, as made by the County Assessor for the year 1882, and that the Board of County Commissioners will meet as a Board of Equalization on

MONDAY, THE 18TH OF SEPTEMBER, 1882.

At the office of the County Clerk, in the Court house, at Dayton, and will continue in session from time to time until the business of equalization presented to them is disposed of; provided that they shall not sit after the first Monday in October, 1882, except as provided by law. J. S. DALLAS, Clerk of Board of County Commissioners. Dated September 9th, 1882.
